## VSbulletin 100 – IATA Standards for Flight Disruption

We need to let you know of some important changes to some IATA standards IATA accredited Travel Agents must follow.

Effective 1 June 2019, amendments to paragraph 4 of Resolution 830d will require agents to:

- Actively ask each passenger whether they wish to have their contact details (mobile number and/or email) provided to Virgin Atlantic, and other airlines in the itinerary, so that we are able to contact them in the event of flight disruption.
- Where the passenger wishes to have their contact details provided to airlines, please enter these in the PNR using the SSR format at the end of this bulletin.
- Where the passenger does not wish to provide their contact details, you must advise the passenger that they may not receive information from the airline relating to flight disruption, include delay, cancellation or schedule change.

This IATA standard does not in any way impact your ownership or ability to service the customers booking or ticket.

You can find a copy of the IATA guide here
